

My stay in Germany 2008 supported by Zimrelief.
Naison Tsoje from Zimbabwe in Harare.

I am a young man aged 24 years. I come from Zimbabwe Harare in Glen Forest Development Centre, and I did my bicycle repairing in Germany for two months, in the beginning of September-08 to the end of October 2008.

I did my bicycle repairing in Kaufbeuren in Germany, I would like to show my gratitude for all the support which Zimrelief and Farbar bikes is doing. Through this course for bicycle repairing I learn more skills about mountain bikes and other bicycles. The main aim about this course is to educate young people in the community and also in schools in Zimbabwe. The bicycle repairing and maintenance aspect of the Centre and Shingirira is blossoming because of your efforts. We wholly hope that it will, one day reach a favourable capacity.

I hope I follow my profession in my native country, Zimbabwe and thank you sincerely for the very good teamwork.
